LEARN MORE...

- 'Blast Mode’™ feature allows the user to temporarily lock the heater into its highest input plus an extra 5,000 BTUs for extreme environmental demands.
- Choose from three performance modes for the desired operation that best accommodates your specific needs.
- Full gas modulation with corresponding air flow modulation to achieve optimal fuel utilization and comfort levels.
- Forced high-fire start up for faster response to the environmental demand.
- Full proportional-integral-derivative (PID) logic to reduce on/off cycles over traditional heat.
